

PERFORMANCE YOU CAN COUNT ON

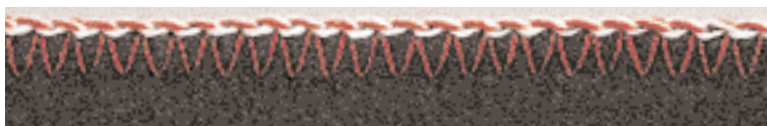

CROCHET

First patented in 1877, the Merrow Crochet machine is a true American original.

Merrow has had more than 120 years to refine and perfect its Crochet machine, and it remains the industry standard today. The crochet stitch forms a beautiful plain edge finish on a wide variety of goods — it's a classic that never goes out of style. You can count on Merrow's cam-driven machines to produce a quality uniform stitch every time.

| Installation | Table top | Table top | Table top |

*where operations permit

With the Merrow crochet machine you can finish a variety of articles with a decorative or retentive covering edge. Crochet machines can be configured to produce a rolled (18-A) or flat (18-E) edge, a two-thread stitch for additional color and contrast (17-F & 15-CA-1), and a single- or double-course edge (15-CA-1).
