THE ZIGGURAT

MERROW 'BUTT SEAMING' TABLE

The butt seaming market requires enormously capable equipment-- tools and machinery that endure in challenging environments.

Merrow's Ziggurat, the textile finishing table for 2005, is designed specifically for Merrow's 70 Class Machine.

Based on Merrow's award winning pyramid shaped table, the Ziggurat is a magnificent departure from the original design. Composed of a specially treated powder coated steel, the surface of the table is guaranteed to withstand corrosion.

The Merrow logo, consisting of the word "MERROW" in a bold, sans-serif font, enclosed within a dark rectangular border.

Locking casters keep the table in place while the operator is working, and the machine is safely secured to the table.

An investment in Merrow Equipment is rewarded with a long lasting high value product, one that will continue to work for years without interruption. Merrow is committed to providing the security that the textile mill, dye house, processing plant etc. need in order to compete in a global marketplace.

The Ziggurat ships easily and assembles in minutes.

DESIGNED BY MERROW

COMPACT SHIPPING

10 MINUTE SETUP

OPTIONAL ACCESSORIES

- TOOL BASKET
- NICKEL THREAD STAND
- TABLE EXTENSION
- EXTRA TREADLE

LOCKING CASTERS

Merrow has developed a table that stays where it is supposed to. An operator needs only to press the caster with the tip of his foot to begin working in a safe and secure environment

TREATED STEEL

Custom treated steel will ensure the integrity of the table. The surface allows for easy clean up and withstands hostile environments and modifications

WELDED PARTS

This table is designed to withstand the most aggressive use. Parts are secured with high quality welds to prevent loosening or unwanted movement

SAVE MONEY AND TIME

Designed for the Merrow customer, the Ziggurat excels when compared to the generic competition. Read below and see how they stack up.

A Merrow Machine is an investment; the Ziggurat protects that investment.

Most importantly it helps the operator work faster and safer. Speed production, reduce downtime. Use the Ziggurat to save money and time.

Merrow Guarantees the Ziggurat for 10 years.
